NetWorks, Inc. will host Microsoft Across America — May 21, 2008

NetWorks, Inc. and Microsoft are rolling into town in a state-of-the-art truck loaded with exciting new technology products that can help you achieve your business goals. The Microsoft Across America Truck is a hands-on interactive environment packed with workstations featuring Windows Vista and 2007 Microsoft Office, a Tablet PC, a server and much more. Come meet with us to experience new live demos and get your business' technology questions answered.

In addition to the truck demos, other technology presentations will be offered by IBM and Extreme Networks. Don't miss this opportunity to be a hero and save your business from its technology challenges.

Date:
May 21, 2008

Time:
1:00—5:00

Location:
Stoney Creek Inn
Johnston, IA

Cost:
FREE

Why should you attend this event?

Try out Microsoft products and other technologies — including remote access, wireless, and mobile devices.

Ask questions about the software and products on display.

New look. New products. New opportunities.

The Future Will Be Extreme. Be Prepared.

For over a decade, innovations from Extreme Networks® have influenced or driven networking technology development, and enabled us to deliver networks with greater capacity, security and ease of management to our customers.

By consistently answering the demands for better performance and new capabilities, Extreme Networks leads where it counts the most—by bringing to market the products that exceed the demands of today's networks with a built-in vision of what may come tomorrow. Our products are open and flexible, allowing users to operate within generally accepted standards. That means that network managers are no longer trapped in vendor-specific environments.

With a presence in over 50 countries, Extreme Networks has the global reach to serve you. Our worldwide 24x7 Technical Assistance Centers (TACs) as well as additional service resources in the Americas, Europe, Japan and Asia provide you with the assistance you need to simplify installations and support ongoing operations.

Why Choose Extreme Networks?

Infrastructure solutions from Extreme Networks provide powerful capabilities to solve complex networking challenges. Convergence and security dominate today's agenda—but how will you prepare for the future? Networks will continue to play a pivotal role in the effective delivery of advanced, secure, and mobile communications. We believe our open networks are the best strategy for capturing the value of future technologies, applications, and defenses.

For many network equipment providers, an open network is simply a standards-compliant network. At Extreme Networks, we go further by offering the industry's first open interfaces providing core network functionality that can be used as services to third-party solutions. We continue to develop new industry partnerships to help ensure our customers can enjoy more choice and higher performance now and in the future.

For more information, visit www.extremenetworks.com or register for our event on May 21 and attend the Extreme Networks session/live demo.

What's New?

Cisco Solutions on NetWorks, Inc. Website

The NetWorks, Inc. website now features information direct from Cisco. Now you can easily find Cisco-specific content on our website. This content includes information in four key areas: Unified Communications, Wireless, Security, and Routing/Switching.

Each area provides access to podcasts, case studies, interactive tours, product information and more. Provided by Cisco, this easy-to-navigate content provides a simple way to obtain additional information regarding Cisco technologies and solutions provided by NetWorks, Inc. The best part is you no longer need to navigate through multiple pages of information on Cisco's website to find what you are looking for.

Information is updated on a regular basis so remember to check back often to find out what is new. Visit www.networks-inc.com and click on the Solutions menu then Cisco Solutions.

Newsletters

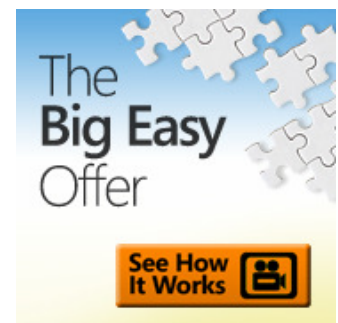

Our newsletter distribution will change from a monthly to quarterly basis. We are also updating our website to include an archive section for all past newsletters. Watch for the next newsletter in July.

Microsoft—The Big Easy Offer Just Got Bigger

With up to \$10 million partner subsidy dollars available to Microsoft Partner Program members, this one offer covers most of the core products and solutions that NetWorks, Inc. sells to our small- and medium-sized customers. This offer gives you the opportunity to find a cost-effective way to acquire the latest Microsoft technology. Now, you can get **higher payouts** for the Windows Server and Small Business Server product group; **Open License and Software Assurance coverage** for SQL Server, Windows Server and Small Business Server product groups, and **more Microsoft Project** now that Open License for Project is now included.

The Big Easy Offer is valid February 1 to June 27, 2008. To get more details, visit: <http://microsoftincentives.com/bigeasy/default.aspx>. You can also learn more at our Microsoft Across America event on May 21. Register today!

Thank You on Behalf of Muscular Dystrophy Association

On April 10 Lynnette Peterson was "locked up" for a good cause at Bonefish Grill. She raised \$1,600 to post bond which helped the MDA raise a total of \$53,649 for this event. Thank you to everyone that made a contribution. Your support will help MDA provide wheelchairs, clinic visits and summer camp for people in our local area.

About Us

NetWorks, Inc. is a leading provider of computer networking and hardware procurement services for the Des Moines metropolitan area as well as for other areas of the Midwest. Our experienced staff can help you with any of your company's information processing needs. We specialize in local and wide area networking with extensive experience working with Novell and Microsoft. NetWorks, Inc. was founded in 1994 and has a staff of certified systems engineers that are available 24 hours a day. We value our client relationships and are dedicated to providing complete network solutions.

NetWorks, Inc. works with IT professionals to help support technology solutions that are critical to your organization's success. Our team is good at asking questions. It's the way we learn about the unique challenges your company faces. And because we serve a diverse group of businesses, we have experience enough to know it is rare that two companies require exactly the same solution. Our technical resources, experience, and creativity are unmatched.

Why not put us to work finding a solution for you? Let our experienced team help you solve your IT problems. We are locally owned and operated.
